PRINCIPAL'S WELCOME

The adventure of your final year in the Senior School has arrived! This is the time of greater flexibility and yet greater demands. It can be a time of tension for students and their parents. Our intention at Oran Park is to provide you with as much opportunity as possible to raise questions and seek solutions.

In the Year 12 Information and Assessment Book we have provided information regarding subjects and approaches to the programs in Senior School. If the information raises questions for you, we are eager to assist.

We are striving to have our students achieve their best; to enjoy their time at the College and to gain valuable insight into the world around them in order to adequately prepare for the future.

We are a Christian and Anglican College. We therefore have a values perspective to all aspects of College life. We will raise the issues of the importance of faith in the Lord Jesus Christ and his message in the Bible.

Please know of our concerns for each child and each family. We certainly wish you well as you embark on an important phase of life in the final Senior Year at Oran Park Anglican College.

NAOMI WILKINS
PRINCIPAL

INTRODUCTION

Welcome to Year 12! Oran Park Anglican College is committed to academic excellence. Each student is expected to follow directions from teachers with promptness and courtesy, maintaining class notes, catching up work if they are absent and completing homework.

Students need to refer to their timetable each day to ensure that they bring all the correct books and equipment for their classes.

Year 12 is divided in two Pastoral Care classes. Their teachers are – **Mrs Low** (nlow@opac.nsw.edu.au) and **Mr Williams** (twilliams@opac.nsw.edu.au). If a student or parent has enquiries that relate to a specific course they should speak to their class teacher initially and then their Pastoral Care Teacher.

The BYOD program will have a significant impact on student's learning. All textbooks for year 12 will be available on the laptop and the availability of apps and online aids to learning are making a significant impact on the classroom. It is important, however, that students are still complimenting the use of technology with a significant amount of handwritten work, as the current reality is that handwriting remains a valuable skill for education and life beyond school.

Oran Park Anglican College is committed to a caring approach towards all students and this is exercised through its Wellbeing and Pastoral Care programs. Each child and family is more than just another student; they are individuals for whom God cares deeply. The College and staff are committed to your family and demonstrate the College core values, which seek the best for your child.

STEVE OWEN
DEPUTY PRINCIPAL

Stage 6 Information on Policy and Procedures 2021-2022

1. Introduction

This booklet summarises the requirements and expectations for the year leading up to the Higher School Certificate in 2022. It includes:

- Rules and Regulations
- College Policies and Procedures

2. Higher School Certificate Eligibility

The NSW Education Standards Authority (NESA) are responsible for setting all regulations for the Higher School Certificate. This Certificate is awarded to eligible students at the completion of two years of senior secondary education that is Years 11 and 12.

In order to qualify for a Preliminary Record of School Achievement, students are required to:

- have completed Year 10 or an equivalent qualification
- attend an accredited school
- satisfactorily complete courses that meet the pattern of study requirements
- sit for and make a serious attempt at the required examinations and assessment tasks.

The Higher School Certificate is accompanied by a Record of School Achievement (ROSA), which lists all courses studied in Years 11 and 12 and the performance grades achieved within each course.

3. Attendance

Because a high level of attendance at lessons is necessary to achieve satisfactory completion of the course, students are expected to attend all lessons in their subjects, unless reasons for not attending are substantial. The College expects all students to maintain satisfactory attendance, make sure that courses are completed and all course requirements are met.

Leave During Term Time – For family holidays, Elite Sport or Employment in the Entertainment/Hospitality Industry

In 2014 the NSW Government introduced amendments to the legislation relating to leave applications and, commencing in 2015, the Minister for Education instituted changes to the process of the recording of attendance and applying for absence from School.

Any family holiday taken during term time will be counted as absence. Families are requested to holiday or travel **during school vacation time only**. If unavoidable, parents should apply for leave in writing using the Extended Leave Form, directly to the Deputy Principal, providing essential details at **least four weeks** prior to the time of leave. Students will also be required to list any Assessment Tasks which may fall during their absence on their application form, which are available at Student Services.

An Application for a **Certificate of Exemption is required for all non-holiday related requests for leave**. (These include exceptional circumstances, e.g. elite non-school sport, participation in the elite arts program, employment in the entertainment industry). Parents must submit an **Application for Exemption from Attendance at School Form** to the Deputy Principal for approval at least two weeks prior to the requested Exemption period.

If the reason for requesting leave is in keeping with the requirements under the Education Act and considered to be in the student's best academic interests, the Deputy Principal will accept the request and if leave is granted, the absence will be recorded as "L" (Leave/Absence). If the Deputy Principal does not accept the request for leave, it will be recorded as "A" (Unexplained or Unjustified Absence). If leave is approved by the Deputy Principal, a Leave Approval letter will be issued and emailed to parents. Parents will be notified by mail if leave is not approved.

A copy of all Leave/Exemption documents will be kept on the student's file. In the case of Certificates of Exemption, the original must be kept by the parents.

The following must be taken into consideration when applying for Leave/Exemption:

In general, the taking of long periods of leave is discouraged. **Vacations taken outside normal school holidays will not normally be accepted as a valid reason for absence from, or non-submission of, an assessment task.** However, if leave is unavoidable an application to the Deputy Principal must be made well in advance to minimise disruption to a student's educational progress. When the period of leave requested is extensive, the student must demonstrate to the Deputy Principal that outcomes in each course will be achieved.

Leave during Years 10 to 12 is extremely difficult due to the NSW Education Standards Authority Assessment requirements. Students/Parents who are seeking leave will need to consult with the Senior School Coordinator, to determine how they might complete all NSW Education Standards Authority Assessment and Coursework requirements well before plans and bookings are made for any absence. Breaches of the NSW Education Standards Authority rules can result in the non-award of the external certificate. If exceptional leave is approved any hand-in assessment task that falls within the leave period must be completed prior to departure or submitted by the due date electronically unless a suitable arrangement can be made with the Senior School Coordinator, to complete the task at a later date. Formal documentary evidence will need to be provided to justify leave when an assessment task is scheduled during the leave period. Any class work must be caught up.

If the student takes leave that is not approved they will receive a mark of zero for any hand-in assessment task that is not submitted by the due date or any in-class task or examination that falls in that period. In addition, students must still complete the missed task upon their return to College.

College fees continue to be payable during these absences. **Teachers are unable to provide detailed work for extended periods, but can make suggestions for study whilst the student is away.**

4. Units

All courses have a unit value, which refers to the class time allocated to the subject.

Number of units	Minimum total time	Typical time per week	Number of lessons in a ten-day timetable	Maximum marks in HSC
1 unit	60 hours	2 hours	5 periods	50 marks
2 units	120 hours	4 hours	9 periods	100 marks

5. Pattern of Study – Courses and Units

Typically, each course of study involves at least 240 hours of class time over two academic years.

The course is split into two portions:

- the Preliminary Course
- the HSC Course

Each of these portions has its own outcomes, content and requirements for formal assessment.

Preliminary Studies refers to subjects and courses typically studied in Year 11.

Preliminary courses:

- are usually studied over three terms
- are usually completed by the end of Term 3

A student must:

- satisfactorily complete the Preliminary course to be eligible to attempt the HSC course in a subject
- complete at least 12 units of Preliminary courses, including at least 2 units of English

HSC Studies refers to subjects and courses typically studied in Year 12.

HSC courses:

- are usually studied over four terms
- typically commence in Term 4 of Year 11
- are completed by the end of Term 3 of the following year

Both patterns of study must include at least:

- 6 units of Board Developed Courses
- 2 units of Board Developed Courses
- 3 courses of 2 or more units (either Board Developed or Board Endorsed Courses)
- study at least 4 subjects

Some courses have certain rules and prerequisites. For example, you can include English Studies in your 6 units of Board Developed Courses, but you can only count it as the 2 units of English that UAC uses to calculate an ATAR if you sit the optional HSC examination.

6. Confirmation of Entry

You must be entered with NESAs for all courses you are attempting this year. This includes any courses outside your school or the College that your Deputy Principal has approved, like VET or distance education courses, and study with an outside tutor.

You will be given a Confirmation of Entry showing your personal details, courses and whether or not you are eligible for an HSC and an ATAR. You must sign the declaration on the Confirmation of Entry and return it to school.

If you would like an ATAR so you can apply to universities, make sure your ATAR eligibility is recorded on your Confirmation of Entry.

Your Students Online account will show key details

Your Students Online account will be updated when your Confirmation of Entry is finalised. You can then log in with your student number and PIN to see messages from NESAs and study details, like your grades for Years 10 and 11. You will also be able to view your exam timetable, assessment ranks and HSC results when they become available.

7. Australian Tertiary Admission Rank (ATAR)

The ATAR is a number between 0 and 99.95 with increments of 0.05. It provides a measure of your overall academic achievement in the NSW HSC in relation to that of other students, and it helps universities rank applicants for selection.

It is calculated on behalf of the universities and released by UAC (University Admissions Centre). The ATAR is a rank, not a mark. Your ATAR indicates your position relative to the students who started Year 7 high school with you. An ATAR of 80.00 indicates that you have performed well enough in the HSC to place you 20% from the top of your Year 7 group, had all students in this group completed Year 12 and been eligible for the ATAR.

It is important to note that your ranking depends solely on your performance in the HSC.

ATARs are calculated for all ATAR-eligible students, but not all students are notified. Only NSW HSC students who indicate on their HSC entry forms that they wish to be notified of their ATAR will receive an ATAR Advice Notice from UAC in the mail at about the same time they receive their HSC results from the NESA (NSW Education Standards Authority).

Are you eligible for an ATAR?

To be eligible for an ATAR in you must satisfactorily complete at least 10 units of ATAR courses. These ATAR courses must include at least:

- eight units from Category A courses
- two units of English
- three Board Developed courses of two units
- four subjects.

How is your ATAR calculated?

Your ATAR is based on an aggregate of scaled marks in 10 units of ATAR courses comprising:

- your best two units of English and
- your best eight units from the remaining units.

No more than two units of Category B courses can be included.

8. Course Completion

For each course, students must:

- follow the course specified by the NESA
- apply themselves with diligence and sustained effort to the set tasks and experiences
- achieve some or all of the course outcomes

The College is required to certify that students have satisfied these expectations.

9. Assessment Plan

Each student's achievement in each course will be measured through formal assessment. This assessment will determine what a student knows, understands and is able to do. There will be a variety of assessment tasks in each course.

The assessment plan in each course is designed to measure the extent to which each student achieves the defined outcomes of the course. In Year 11 the formal assessments are the major indication of satisfactory completion. In Year 12 the formal assessments all contribute to the assessment mark which is reported as part of the student's HSC results. The Assessment mark is not to be regarded as an indication of how the student will perform in the HSC examination.

Students should keep all completed assessment tasks until after the HSC examinations.

The plans and calendar weeks, for formal assessment in each subject will be issued in an Assessment Handbook.

10. Assessment Policy

Number and type of tasks

- Three tasks in Preliminary Courses and three to four tasks including the trial HSC are considered sufficient to adequately assess the components of most courses according to NESA
- The Assessment Tasks should be appropriate to the outcomes and components of the course being assessed. For example, tasks could include assignments, fieldwork studies and reports, model making, oral reports, research projects, practical tests and open-ended investigations, viva voce and improvisations.

Procedures for informing students

All students will be given and sign for a Preliminary/HSC Assessment booklet at the beginning of the Preliminary/HSC Course. This will contain the Assessment Schedule for each task and the week and term it will be administered.

Submission of Tasks

- a. The assessment tasks listed in the Assessment Booklet will measure achievement of the outcomes of the Preliminary/HSC course and determine the marks in the College ranks and grades reports.
- b. In addition to the Assessment book students will be given written notice of the assessment task a minimum of two weeks before the assessment is due containing:
 - A detailed description of the task
 - The outcomes being assessed
 - The weighting of the task
 - The marking criteria
- c. Assessment tasks will occur in the weeks designated in this booklet unless there is prior written notification from the relevant Subject Co-ordinator.
- d. The relevant Subject teacher/coordinator will determine on which day of the designated week the assessment will fall. The Academic Administration Coordinator will meet with Subject Coordinators to determine a Year 11/12 Assessment due date calendar.
- e. All Assessments must be submitted on the day and time stipulated on the Assessment Task Notification.
- f. If a task is submitted after this time or are absent the day prior to a hand-in task (without just cause) the student will receive zero.
- g. Assignments are submitted electronically they must be submitted through a system where the time of submission is recorded (eg. Canvas, Email).
- h. All assessment tasks must be a printed hard copy of the task, including a cover sheet, unless specifically stated. The Cover Sheets will be available at Student Services. Computer hardware or software failure will not be accepted as an excuse for late submission. Students cannot submit assessments via email unless specifically stated. When working on assessments students are advised that it is wise to have a backup computer copy of all tasks including backing up in the cloud eg OneDrive as well as draft printed copies. Electronic submission of a specific task is only permissible using systems such as Canvas or email for example, where this has been specified in the written notification of a specific task.
- i. If a student is ill or unable to complete an assessment for a valid reason they must
 - Ring the College office before 8.30 am on the day of the assessment to notify the College of the absence.

- Download the “Illness/Misadventure” form from the College website and have it completed by a doctor or other suitable person.
 - Return the form to the Academic Administration Coordinator on return to College.
 - At that point the student will be required to complete the task, or an alternate task designated by the Subject Coordinator/Teacher.
- j. Zero marks may be awarded when a student has not made a genuine attempt, does not have a valid reason for not completing a task or there is evidence of serious malpractice, such as plagiarism and cheating at examinations as determined by the Deputy Principal and Academic Administration Coordinator, in consultation with the Subject Coordinator and Teacher. **In addition, students are still required to complete or resubmit the task.**
- k. Disability provisions similar to those given for the HSC examination will only be given to students for major examinations. They may be given in other school-based assessment tasks at the discretion of the subject coordinator and the Learning Support Coordinator.

Misadventure/Illness and Extensions

Misadventure/illness is an event immediately prior or during an assessment that is beyond the student’s control and which allegedly affected the student’s performance in that assessment. (ACE manual Ref 9023).

- a. Students can appeal for Misadventure/Illness using a Student Request Form available from Student Services or it can be downloaded from the College website. It must be completed by a Doctor or other suitable person depending on the circumstances.
- b. In the event of absence due to suspected COVID illness, the student **must** provide evidence of a negative result **before** returning to school (i.e., a screenshot of the result). This needs to be **emailed** to the Academic Administration Coordinator, along with the Illness/Misadventure **prior** to their on-site return.
- c. The Academic Administration Coordinator and Subject Coordinator will determine alternative arrangements for any missed assessment task.
- d. Extension of time may be granted only in very exceptional circumstances. **Students are not to consider that extensions of time will automatically be granted for assessment tasks.** In very exceptional circumstances, it is the student’s responsibility to submit a request for this special consideration from the Academic Administration Coordinator well before the due date of the assessment task. Students will need to apply before the due date, using the form from the website or from Student Services in order to be granted an extension. **Vacations taken outside normal school holidays will not normally be accepted as a valid reason for non-submission of an assessment task.**

- e. Malpractice is any activity undertaken by a student that allows them to gain an unfair advantage over others. It includes, but is not limited to:
- copying someone else's work in part or in whole, and presenting it as their own
 - using material directly from books, journals, CDs or the internet without reference to the source
 - building on the ideas of another person without reference to the source
 - buying, stealing or borrowing another person's work and presenting it as their own
 - submitting work to which another person such as a parent, coach or subject expert has contributed substantially
 - using words, ideas, designs or the workmanship of others in practical and performance tasks without appropriate acknowledgement
 - paying someone to write or prepare material
 - breaching school examination rules
 - using non-approved aides during an assessment task
 - contriving false explanations to explain work not handed in by the due date
 - assisting another student to engage in malpractice
 - deliberate absence prior to the submission of a task.

Any student found guilty of malpractice in an assessment task shall lose between 10% and 100% of the mark depending on the nature of the malpractice. If malpractice affects more than 50% of a submitted task, this may be considered severe malpractice and may result in a zero mark being awarded. The penalty will be determined by the, Head of Senior School, Academic Administration Coordinator and Subject Coordinator of the subject involved.

- f. Failure to submit an assessment task on the due date because of truancy (that is unauthorised absence) will automatically result in zero marks being awarded for that task.
- g. The Head of Senior School, in consultation with the Academic Administration Coordinator and Subject Coordinator, will determine an alternative task in the result of a non-completion, non-serious attempt and/or plagiarism.
- h. Failure to complete an Assessment Task within the allocated time provided, either as an in-class period task or for that element of a larger task will result in a zero being awarded.
- i. **Even though zero marks may result due to lateness, students still must submit the task.** Failure to submit or complete work is also grounds for an 'N' determination for that task i.e., Non-Completion of a task. Non-completion of a task may put the student's HSC in jeopardy.

11. Assessment Review

- a. A student may seek clarification about assessment results from their teachers. This may result in re-marking of the task or a section of the task. After this process, a student may submit an appeal against the administration of any assessment task. The student must complete the form "Application for Appeal" within a week of a problem occurring and will be considered by an appeals committee comprising the Deputy Principal, Academic Administration Coordinator and the relevant Subject Coordinator.
- b. An assessment review should focus on the College's procedures for determining the final assessment mark. Students are not entitled to seek a review of a teacher's judgements of the worth of individual performance in assessment tasks at the end of the course. The marks or grades awarded will not be subject to review as part of this process. Any disputes over an individual task must be resolved at the time a task is returned.

12. Special Requirements for VET courses and Major Works

VET students must complete mandatory 35 hours of industry workplace requirements in each year of the Preliminary and HSC courses.

Students studying courses with a Major Work practical component must complete their work at school. Special Requirements for work that is done at home must follow NSW Education Standards Authority guidelines to enable certification by the class teacher.

Students who are submitting Major Works in Visual Arts, Design and Technology etc. must ensure that their submitted work(s) comply strictly with the NESA requirements, in terms of deadlines, size dimensions, weight, volume, running time limits (for film or video works), nature of materials used etc. The Education Standards Authority will not accept works that are oversized, overweight, over the prescribed running time or constructed of prohibited material.

For all submitted works, you will need to sign a declaration stating that the work is your own, and that you have properly acknowledged anyone else's words, ideas, designs or work that you have used.

Your teacher will monitor and record your progress on your submitted work and, along with the Academic Administration Coordinator, will certify that you completed the work. It must demonstrate that it:

- is your own work
- is consistent with earlier drafts and other examples of your work
- was finished by the due date.

If your teacher can't certify the work, you might receive fewer or zero marks. If you are planning a work that you will need to work on at home, you need your teacher's permission.

These requirements are set out in the ACE Manual and in the relevant Subject Manuals. These can be found on the NSW Education Standards Authority web site, <https://educationstandards.nsw.edu.au>

13. Achievement in HSC Courses and Feedback

For Preliminary and HSC Courses the College will report on each student's achievement against the NSW Education Standards Authority outcomes.

Marks awarded for assessment tasks must reflect the differences in student performance. This is achieved by the making guidelines using the full range of marks available for the task.

- a. Information on marking guidelines may be found on the NESA Portal – Principles for Developing Marking Guidelines
- b. This does not mean that marks must be spread across the whole range nor does it mean that they must fall between 50 and 100, which is the range of most marks when assessments have been moderated.

Students must receive full written feedback on all assessment tasks.

14. 'N' Determinations

A student who fails to meet the requirements in any course can receive an 'N' for that course, to indicate this non-completion. Courses that are not satisfactorily studied will not be listed on the Record of School Achievement (ROSA).

Prior to an 'N' being awarded the student and the parent/guardian will be given written warnings. Students who do not complete an assessment task will be sent an N award warning letter as per the NSW Education Standards Authority Policy with a new date by which the task has to be completed. These warnings will be early enough for the student to correct the problem and meet course requirements. If the task is not completed by that date a second warning letter will be sent. If not completed the student will be interviewed by the Deputy Principal and Academic Administration Coordinator who will notify the student of the possibility of a 'N' determination in that subject.

An 'N' can lead to a student not satisfying the requirements for a Preliminary course. Consequently, the student will be ineligible for the HSC course in that subject.

15. Student Entry

The College is responsible for completing a formal entry for each student who takes Preliminary and HSC courses. This will be done by the Academic Administration Coordinator.

16. Student Transfers to the College

Any student who transfers into the College after the 30 June the previous school is responsible for providing assessment marks.

17. Accumulation of Preliminary and HSC courses

It is possible to accumulate Preliminary and/or HSC courses over a period of up to five years. Accumulation of courses will normally happen only after formulation of a detailed plan, in consultation with the appropriate College staff.

18. Changes to Pattern of Study

If student wish to discontinue a course or adjust their Pattern of Study. A Request for Change of Course form must be completed. Approval will be given to the student after parental approval, as well as consultation with the class teacher, Subject Coordinator, Careers Advisor and Academic Administration Coordinator. Student must continue to remain in the course until notified by the Director of Operations via email that the change has been approved.

19. College Forms

All forms required to submit applications (for approved leave, change to courses, exemption from attendance at school and illness/misadventure) will be available at Student Services and on the OPAC website.
