

## Senior Students Use of Motor Vehicles, Motorbikes and Transporting Passengers

The College requires that students who drive or ride to the College adhere to the College Code of Behaviour, as well as the road rules. This means that students will be expected to always drive or ride in a safe, lawful and respectful way.

Enrolment in the College is reliant on upholding the principles embodied in the College Code of Behaviour and the other rules which the College from time to time may determine. As such, we ask that each parent supports and encourages their child to comply with the following:

- The understanding that driving or riding to the College is a privilege. A car or motorbike can be a very dangerous vehicle, and the rules that follow are designed to protect students. They are also the rules of The Anglican Schools Corporation that must be followed in validation of our insurance.
- Students on red 'P' plates cannot carry passengers to or from the College without previous written permission from the parents of the driver or rider.
- Students on red 'P' plates cannot carry passengers to or from the College without previous written permission from the parents of the passenger.
- Students on red 'P' plates who wish to transport siblings must have prior written permission from parents and include the names of the siblings.
- Senior students who drive or ride to the College are required to park off-site, preferably at Gardner Reserve.
- Students may not leave the College grounds during the College day for any reason. Failure to adhere to this rule will result in an after-College detention.
- Students who drive or ride to the College may not sign themselves out early without parental permission
- The College takes no responsibility for damage that may occur while the vehicle or motorbike is parked.
- Students will not be allowed to access their vehicle or motorbike during the College day nor will they be allowed to loiter near them.

We expect that students will drive or ride sensibly at all times and follow any directions directed to them by staff. Students who fail to follow the College rules will receive appropriate consequences. Students who do not have written permission to travel in a car or on a motorbike driven by another student will not be allowed to do so.
